

Consumer Electronics Mfg Line Card

When the model shop at HP is inundated with a high demand for machine parts, they come to HTMS.

“Your motto seems to be “the impossible done yesterday.” Time and again you have met critical requests with very challenging turn around times. Thanks for being apart of our team.”

Ron Ames, Senior Manufacturing Planner, Hewlett Packard Corporation

What can HTMS do for you:

Consider HTMS the manufacturing arm of your business. Our customer focused approach and proactive use of technology results in a high degree of partnering that helps you meet project milestones and deliver your project on time all while containing your costs.

Product Types:

Products: Manufactured machine parts from a variety of metals and industrial plastics; milling, turning, waterjet cutting, and fabrication. From one part to five thousand parts.

HTMS' Services Include:

- Engineering Services - Certified & licensed product engineering
- Materials Management – Tailored and scalable supply line
- Closed Loop Quality - Assurance processes guarantee the highest quality

HIGH TECH

MANUFACTURING SERVICES

Contract Manufacturing Service Offerings

Fully integrated contract manufacturing support of customers from conceptual design and initial specification, to prototype, and through final production. Consider us the manufacturing extension of your business.

Capabilities

CAM	Materials	Industrial Finishes
• Virtual Gibbs	• Aluminum	• Passivation
• Predator	• Stainless Steel	• Anodizing
Drawing Formats	• Other Steel Alloys	• Electropolish
• Autocad (Dxf/Dwg)	• Bronze	• Teflon Coating
• Solidworks	• Brass	• Chromate
• IGES & IGES Wire	• Nylon	• Oxide Etch
• STEP AP203/AP214	• UHMW	• Electroless Nickel
• CATIA V4/V5	• Ultem	• Industrial Paint
• STL	• PVC	• Powdercoat
• Cadkey	• Delrin	Outside Services
• ProEngineer	• Nylon	• Heat Treating
• ProMechanica	• Acetal	• Sheet Metal Forming
• Inventor	• Acrylic / Polycarb	• Grinding
• Many Others	• Others	• EDM
