

HTMS has specialized in supplying manufactured machine parts for the paper converting industry for over 20 years. Close relationships with our customers have enabled us to develop a variety of core chuck products that have greatly enhanced productivity and safety for our customers.

Product Types:

We have a number of core chuck configurations to fit your specific needs and equipment set. If a standard product doesn't fit your need we'll custom configure a solution for you. Our products are durable, light-weight, and affordable.

- Large Diameter Core Chucks – UHMW Ribbed Design
- Small Diameter Mandrels – Light Weight Nylon
- Bolt together Core Chucks and Mandrels – For higher stresses
- Custom Build Core Chucks & Core Adapters

Have one of our representatives make a field service call to help you specify your Core Chuck requirements. We will be happy to visit your facility to insure you get what you need to keep your equipment running and your people safe.

Ribbed Style Core Chuck

Solid Style 1 Piece Core Chuck

Solid Style 2 Piece Core Chuck

Capabilities:

- Manufacturing - Controlled, flexible, and exacting internal processes.
- Expert Machining - Highly skilled and experienced workforce.
- Engineering Services - Certified & licensed product engineering
- Materials Management - Scalable supply line services tailored for each customer
- Closed Loop Quality - Assurance processes guarantee the highest quality
